Your own activities for that you will be responsible: Detailed activities

Short description of the volunteer's activity:

Language Club - This activity will be focused on non- formal teaching of English/Italian/French to children. The activity will be made in English. Workers will prepare notice boards in centers where volunteers will prepare vocabulary according to the theme of the service. The theme will change once a month and will be related to e.g. Healthy lifestyle, Computer, social networks, bullying- each month different topic. The new vocabulary will be in English and volunteers' languages enriched by animations.

Health Lab- The children do not have basic knowledge about health science, they do not go to doctor as they see it at their parents they just take pills even small children therefore the

volunteers will teach them how body works through non formal education- visual arts, experiential learning etc. The activity will be focused on taking care of injured person, how to measure pressure, how to tie a wound or that they can use herbs instead of pills etc.

Bon Appétite! - In this activity the volunteers will teach children how to cook their traditional meals as well as Czech and Roma meals with the help of workers.

The part of volunteers' stay in our organisation will be also mini project of volunteers. During the whole year they will gather information and experience from which they will make use of in preparing mini project.
